

PROFILES OF APPOINTED FIRMS

W Architects Pte Ltd

W Architects Pte Ltd is an established local firm with relevant experience working on conservation and restoration projects such as the National Museum of Singapore. Under the President Design Award 2008 and 2007 which is Singapore's highest accolade for excellence in design, the firm was awarded Design of the Year 2008; and Designer of the Year 2007. In 2007, the firm received the URA Heritage Award 2007. In this project to refurbish VT and VCH, The firm will be the leading consultant for architecture and building services and will carry out site planning and landscape design, architecture and interior design. It will also work with T. Y. Lin International Pte Ltd on structural, mechanical and electrical designs for this project.

Arup Singapore Pte Ltd

Arup Singapore Pte Ltd is an independent firm of designers, planners, engineers, consultants and technical specialists. They operate through a network of office in the region, with over 82 offices worldwide.

Arup, as Acoustic and Theatre Consultants, is central to the project; developing a full brief for the facilities, improving the technical capabilities, enhancing the acoustics of the concert hall and theatre and making the audience experience as memorable as possible, whilst retaining the key historical features of the buildings. Arup is also providing specialist input on the fire engineering and the environmental performance of the building.

T.Y.Lin International Pte Ltd

T.Y.Lin International Pte Ltd (TYLI), then known as T.Y.Lin South East Asia Pte Ltd, was established in 1972 to meet the region's demand for technical expertise in civil and structural (C&S) engineering. The firm has provided consultancy services to more than 400 clients in the region and handled over 600 projects involving a total investment cost of US\$10 billion in construction costs for executed projects. The firm has specialist skills in structural modeling, analysis, design and construction support. In 2007, TYLI started offering multi-disciplinary consultancy services when PCR Consulting Pte Ltd with more than 30 years experience in mechanical & electrical (M&E) engineering consultancy services joined the TYLI Group. The Group has won numerous awards over the years viz FIABCI Prix d'Excellence Award in 2004 and 2006, Architectural Heritage Award 2007, Best Buildable Design Award 2006 and so on. TYLI will carry out the C&S and M&E engineering consultancy services for the refurbishment of VT and VCH.
