#2: Art in Public Space Singapore, reloaded

26 Oct, 4pm | NTU CCA

Join artists Robert Zhao and Speak Cryptic as they reflect on the realisation of their proposals, their artistic approach in the public sphere as well as the challenges involved in working for an unknown audience.

Schools Programme

Assemblies with Art Outreach

Open for school bookings until Feb 2020

Art Outreach's popular school assembly programme presents the two artworks to students, and is designed to complement the students' understanding and appreciation of the Singapore Story. Students are also given the opportunity to learn more about public art and its various creative processes through short videos that document the making of the artworks. Students will be led to examine artists' practices through insights into the production of the artworks and study art making conventions.
