## Virtual Jalan-Jalan @ National Gallery Singapore

by Lee Sze-Chin

Join us for a virtual experience down memory lane! Interact live with our co-hosts as they bring you on a 60-minute exploration of National Gallery Singapore and selected artworks that paint Singapore's past, and invite you to take time out of the present to reflect, and creatively imagine the future. There will be lots of opportunities for art appreciation, discussions, fun engaging activities and sharing of your personal stories with peers – join us for a uniquely Silver Arts experience at the National Gallery Singapore! This programme is designed for those aged 50 and above.

### About Lee Sze-Chin

Sze-Chin is an art therapist, art educator and artist. He has been investigating how immersive new media experiences can promote creative self-expression and encourage mindfulness. Most recently, he has been piloting digital eLearning projects in the community, and for the arts and culture sector.
